

The distributed energy resource strategy elements:

- ✓ Vision and guiding principles
- ✓ Objectives
- ✓ Framework
- ✓ Metrics
- ✓ Business models

The DER strategy will guide how DER assets are deployed and managed as DER technologies evolve and our electric system changes to incorporate them.

This will be important to help Platte River Power Authority and its owner communities of Estes Park, Fort Collins, Longmont and Loveland achieve clean energy goals while supporting its customers.

What are DERs?

- Energy efficiency
- Demand response
- Distributed generation
- Distributed energy storage
- Beneficial electrification

Get involved

Visit the DER website to learn more and to sign up to receive updates.
