

MARCH 31, 2017

Walnut Street Water & Sewer Rehabilitation Project

WEEK #2 CONSTRUCTION UPDATE

Construction began in Seckner Alley on Monday, March 27, and should last about three weeks. Sewerline installation in Walnut Street is on schedule as described on the calendar on back.

The image at right shows what crews are dealing with in Seckner Alley (gas, electric and water lines, multiple sewer services, sewer main, cable and electric conduit)

The Vac truck backed into the alley with inches to spare on both sides

Digging the bursting pit in Walnut Street around existing utilities

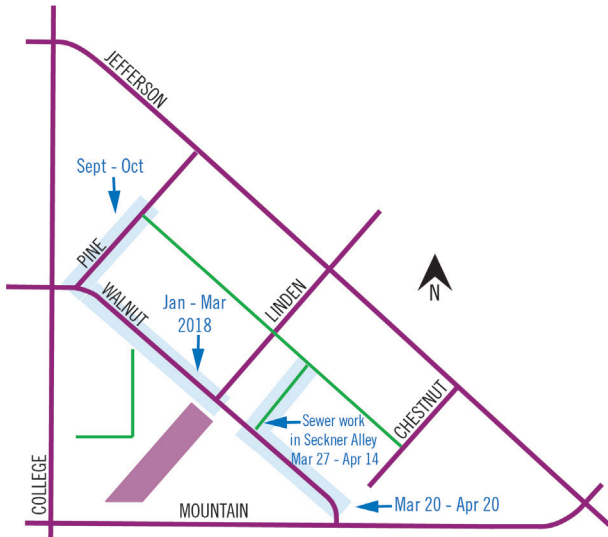

THE SCHEDULE

Sewer line replacement in Walnut Street and Seckner Alley

Utilities will abandon the old clay sewer pipe and install 306 lineal feet of new 8-inch sewerline in Walnut Street from Mountain Avenue to Seckner Alley.

The old 6-inch clay sewerline in Seckner Alley also will be replaced beginning March 27 with an 8-inch sewer. A trenchless technology known as ‘pipe bursting’ will be used because open excavation in such a narrow alley is very difficult. Spot excavations will occur to identify and reconnect active sewer services, with no expected service disruptions to businesses.

- Work on the hotel frontage will not extend beyond its boundary fencing during our construction timeline.
- Walnut Street will remain open. Westbound traffic on Walnut will be closed from Mountain to Linden – no right turn from Mountain onto Walnut.
- Sewer systems for businesses in the area will not be affected.
- Pedestrian access will remain open at all times.
- Signage will be placed and labeled as needed for safety of crews, business owners and the public.

CONSTRUCTION SCHEDULE

JOB ACTIVITY	3/20		3/27		4/3		4/10		4/20
Traffic Control/Setup									
Jobsite Fencing									
Remove Asphalt									
Install Sewer									
Service Connections									
Install New Manhole									
Repair Concrete Panels									
Remove Traffic Control									
Seckner Alley Sewerline									
Replace Asphalt									

WHAT YOU CAN EXPECT NEXT

- **September–October 2017**
In Pine Street from the alley to Walnut Street, Utilities will replace the existing 4-inch waterline with 400 feet of new 8-inch waterline.
- **January–March 2018**
Utilities will abandon two old water lines in Walnut Street and install 550 feet of new waterline from College Avenue to Linden Street.
