

UTILITIES INSIGHTS

Small Changes, Big Differences

March 2020 | Issue 3

City of
Fort Collins
Utilities

Monthly newsletter for Fort Collins Utilities customers with tips to save energy and water to lower utility bills.

DID YOU KNOW? On average, U.S. household leaks waste one trillion gallons of water every year – that’s enough water to supply average annual use for 11 million homes. Most common types of leaks in the home are often easy to fix and can save about 10% on your water bill.

Toilets use the most water and are where the most common household leaks are found. On average, the typical toilet uses about 33 gallons of water every day. When a toilet leaks, the impact is like flushing the toilet an extra 50 times each day (up to 120 gallons) and can cost an extra \$100 a year.

NEED SUPPLIES TO CHECK FOR A TOILET LEAK?

During Fix a Leak Week, March 16-20, you can pick up free dye tabs at 222 Laporte Ave., 7 a.m.-7 p.m. Monday through Friday or 8 a.m.-noon Saturday.

In 2019, the average leak in Fort Collins homes wasted about 2,500 gallons daily. This adds up to about \$7 every day!

CHECK FOR A TOILET LEAK Once you have your dye tab, follow these easy steps:

Fix a Leak Open House

March 25, 4-6 p.m.

Community Room, Old Town Library

Learn how to fix common leaks at this free, family-friendly event. Live demos and fun activities for kids are included. Enter to win a free high-efficiency toilet.

Utilities Tip:

Track water use, receive leak/high use notifications and learn ways to save by logging into your WaterSmart account.
