

Adding Skype to Facebook Portal

1. To add Skype to the Facebook Portal, first open the **Browser** app.
2. Enter www.skype.com
3. Tap **Add to** in the upper right side of the screen.
4. Choose **Portal Home**. This will add Skype as an app on the Portal.
5. You may already be signed into Skype. If you are, you'll see your username in the upper right corner.
6. If you aren't already signed in, in the upper right corner, you'll see **Sign in**. Go ahead and sign in with your Skype username and password.
7. You may get a message saying that the device is not supported. That's okay!
8. Tap your name in the upper right corner and choose **Use Skype online**.
9. Skype should open just fine!
